

Transit security is everyone's business!

Be alert!

Help keep our transit system safe and secure

Everyday, thousands of people take transit to get safely to work, school or other activities. *OC Transpo* and la *Société de transport de l'Outaouais* make every effort to ensure that public transit in Ottawa and Gatineau runs safely and efficiently. Whether you're a regular or occasional rider, we need your help to keep our transit system safe and secure.

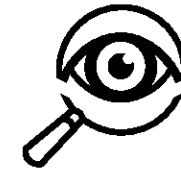

How can you help?

Trust your eyes! While waiting at your bus stop or riding the bus, be alert. Watch for unusual situations, behaviour or packages, and report anything suspicious!

If you see something, say something!

Help us keep a watchful eye on our transit system. Report any suspicious activity that could pose a threat to public safety.

For more information on how you can help us ensure and maintain security on our public transit system, visit our web site at www.sto.ca/secure
